**HERCULES 80**

**MOCASSIN - CLOGS  
VERTICAL REVOLVING MOULDING MACHINE**

Equipped with PNEUMATIC POUNDING HAND TOOL  
AND UPPER SOFTENING DEVICE

**60%**  
Less Room  
than Any Other Machine

# HERCULES 80

## MOCASSIN - CLOGS

### VERTICAL REVOLVING MOULDING MACHINE

Equipped with PNEUMATIC POUNDING HAND TOOL AND UPPER SOFTENING DEVICE

#### OPTIONAL

- Kit for clogs operation
- Heated heels
- Device to preheat 8 more aluminium lasts

- The mod: **HERCULES 80** is a new revolving 8 STATIONS moulding machine with HEATED ALUMINIUM LASTS SUITABLE FOR MOCASSIN & CLOGS UPERS

#### It is built with:

- Softening device with SUPERHEATED STEAM. It softens the upper perfectly without wetting it.
- PNEUMATIC POUNDING HAND TOOL with 6500 blows PER MINUTE, 450 GR of weight and 100 lt PER MINUTE AIR CONSUMPTION. Its power is adjustable. This tool ENSURES BETTER QUALITY AND HIGHER PRODUCTIVITY.
- Each station is equipped with AN INDEPENDENT regulator to adjust the stretching of the uppers ACCORDING TO THEIR TYPE AND SIZE.
- The machine fulfils the CE safety regulators.
- ITS ERGONOMIC CONSTRUCTION ASSISTS THE OPERATOR TO work WITHOUT FATIGUE.
- Quick replacement of the ALUMINIUM LASTS.

#### TECHNICAL DATA

**OPERATION** : Pneumatic

**PRESSURE** : 6 Bar

**AIR CONSUMPTION** : 0.48 SCFM  
(13.5 lit/min)

**CAPACITY** : 700 pairs per hour

**VOLTAGE** : 230V Single phase 50Hz

**POWER CONSUMPTION**: 1700 W

**DIMENSIONS (mm)** : 1100x650x1650

**WEIGHT** : 210 kgs

Financed by P.O.P of Attica 1994-1999
